

# Mobile Enterprise

## Always-On Monitoring of Mobile Phone Locations

Incremental Revenue from Small Business Subscribers

Location-enhance your call control/call manager service with Mobile Enterprise from IntelliOne. A managed service using IntelliOne's proprietary mobile positioning and traffic measurement systems, Mobile Enterprise offers small business plan subscribers a low-cost, easy-to-use field management tool.

Features include:

- Permission-based location monitoring for ANY type of mobile phone - without GPS
- Automated dispatch alerts by email, text message or VoIP on breach of defined boundaries
- Driving behavior reporting - employee speed compared with traffic flow
- Google® Map displaying current phone locations and 24-hour motion history
